

School Smile Screenener[®]

Clinician Pages

Improved security

- Clinician access is specific to a particular screening result
- Clinician codes are only created by printing a referral letter or asking for a code
- Clinician codes expire after 6 months, but a new code can be requested easily.

3 levels of access

- Clinicians can self-register, but then they must have a Referral code to view anything
- Clinicians can also be attached to one particular organisation, in which case they can search the database without a referral code but they need the child's name and date of birth
- Clinician Administrators will have one or more schools added to their profile and they can browse and see all the children in those schools who failed their vision check or were force referred. They have no access to children who passed their vision check or had no check carried out yet. They can also request a Referral code and export list of children.

First name

Last name

Date of birth

Registered opticians can also see this

[Search](#)

Browse children

Alternatively you can browse for children in the schools that you were assigned.

You can also search children if the school is added to your profile.
You can only see children who failed the test or were "forced referrals"

Registering as a clinician

The image displays two screenshots of the School Screener website interface. The left screenshot shows the 'Login as Administrator' page, which includes a cartoon bear mascot, a login form with fields for email and password, a 'Remember me' checkbox, and a 'Login' button. A red box highlights the 'Register as Clinician' link in the top navigation bar. The right screenshot shows the 'Register clinician' page, which features a blue header with the title and a 'Cancel' button. Below the header are several input fields: 'First Name', 'Last Name', 'E-mail', 'Confirm email', 'Address line 1', 'Address line 2', 'Postcode', 'Town', 'County', 'Country', 'Telephone', and 'Profession' (with 'Optometrist' selected in a dropdown menu).

Optician can self-register
They can provide feedback on results where
The have a referral code (printed on the
Letter to parents)
